A-ROUND

for 5 or more vocalists plus 1 instrumentalist.

Vocalists

Everyone sings Line 1 in unison/octaves. The tempo is slow.
Proceed through Lines 2-12 in order, but at your own individual tempo.
If you find yourself in synch with another, unsynch yourself.
Enunciate the words clearly, but don't get all loud about it, okay?
When early birds are finished and awaiting the others, repeat the last six notes of Line 12 until all singers have caught up, then repeat those last six notes in unison.
Note: the first one finished doesn't necessarily win.

Instrumentalist

Play Line 1 in unison with the singers.
Play Lines 2-12 in any order you choose. The tempo is slow.
Be aware of early bird singers vamping on the last six notes of Line 12.
When it's at last time, join in with the singers on those last six notes.

Id be much obliged if the very last note were a decrescendoeed fermata.
Thanks!
