

The Vasectomizer

Attention, men! Are you embarrassed to visit your family proctologist for a little ductwork retuning each time you need to stem the flow of sperm into your seminal stream? Do you long for the day when you can sterilize yourself in the privacy of your own kitchen? Yearn no more! The easy to use Acme Vibrating Vasectomizer® is now here! Never again suffer the ignominy of a medical administrator ridiculing the shape of your scrotum. The days of sharp hemostats poking your privates are over! The Vasectomizer works quickly, painlessly*, and without annoying anesthesia. It enhances the principles of Newton's laws of motion pictures with a simple nostrum found in most home abattoirs. Merely turn it on and place your external sex organ against the Sterilatron™. A few painless* seconds later and, *voilà!*, no more untimely offspring issues! Not sold in stores, the Vasectomizer is available by mail order from Flederer Family Circus Products and, for a limited time only, at a special introductory price. Makes a great gift. Order one today!
