

With Passion

“Helga, I burn with passion for you!” exclaimed Meptang, the Giant Straw Creature. “No, you don’t,” retorted his companion, whose real name was Eunice, as she tried to push away from him. “You just burn! And now *I’m* burning, too – right in front of all of these nosy little Earth-microbes. Thanks a lot, you ninny!” she sputtered as they both went up in flames.
